

Summer Wine Specials - Enjoy with Friends and Family

{%anr%},

A sense of calm is slowly returning to the vineyards. Most of the summer work on our steep slate slopes—such as tying up the vines, topping them, and mowing between the rows with a brush cutter—is now largely complete. Our vines are in good health, even though a few liters of rain would be welcome.

It's time to take a little breather and recharge for the coming fall, get together with friends or family, and enjoy the now-pleasant summer weather with a good glass of wine.

Our crisp, elegant Rieslings and Burgundy wines are absolutely perfect for this. Whether paired with summery dishes—including vegetarian options—or a nice cut of meat off the grill, they offer pure enjoyment—and all with relatively moderate alcohol content: in the case of fruity-sweet or noble-sweet wines, just 7.5 to 8.5% ABV. - semi-dry wines between 10.0 and 11.5% ABV, and even dry wines, which start at just 11.0% ABV and rarely exceed the 12.5% ABV threshold. You can find all the details—such as alcohol content, residual sugar, etc.—about our wines in our ONLINE SHOP at: shop.martinconrad.de
